

## **PT. GUNANUSA UTAMA FABRICATORS**

Doc. No. : MN-GN-002 – Date : 4 April 2008

### **HEALTH, SAFETY AND ENVIRONMENT POLICY**

PT. GUNANUSA UTAMA FABRICATORS is committed to be a leader in Health, Safety and Environmental Preservation by promoting healthy and environmentally friendly habits to achieve accident-free operations with world class performance.

Therefore, the Company shall always do its utmost to prevent any accident, occupational sickness and any untoward incident including near-misses that would result in injury, damage to properties or which are detrimental to the environment.

Our operational strategy is to continually improve our health, safety and environmental performance.

To pursue the above commitments, we will;

- Identify, evaluate and manage any potential risks related to health, safety and environmental within our business processes, products and services;
- Comply with customer requirements, government laws and regulations and all relevant health, safety & environmental codes and other requirements;
- Implement and continually improve the health, safety and environmental management systems;
- Prevent pollutions to the environment and conserve natural resources;
- Integrate the health, safety and environmental considerations in our business planning and processes;
- Improve employee competencies and awareness in health, safety and environmental to support their day-to-day jobs and activities;
- Encourage involvement and commitment of all employees and business partners to contribute in safety and health prevention and protection control & pollution prevention programs;
- Engage and maximize the role of the local community to participate in the projects we undertake;
- Provide proper equipment and training to develop and enhance the performance of our human resources.
